# Powering Subscription Businesses from Lead-to-Cash to Revenue Recognition

## Rise of Subscription Economy

Customers have changed. Their needs have changed. Their expectations have changed. They want guaranteed outcomes, customized experiences, and constant improvement. The end result? The explosion of new business types and models to keep customers engaged in long-term relationships.

In order to drive these dynamic experiences in real-time, businesses want detailed insights into their subscribers, optimized E2E business processes, and the sharpness to quickly respond to changing demands. Having said that, businesses can't achieve these goals with legacy systems.

- ✔ Recognize revenue in real-time for strategic insights.
- ✔ Pre-built revenue reporting & analytics.
- ✔ Meet compliance requirements by automatically applying ASC 606/IFRS 15.
- ✔ SSP analyzer for periodic assessment.
- ✔ Access real-time subscription data such as MRR, ARR, and churn rates, etc.
- ✔ Extendable platform that integrates with CPQ, ERP, payment gateways, analytical data engine, or any data source.

## World's Leading Businesses Rely on Ayara

"The main win from Ayara is that it has created seamless revenue operations with our ERP system. If customers leave and then come back to buy more after we already had booked, Ayara identifies and ties the new deal with the original deal, creating a continuous update that is reported in Ayara and booked in Netsuite. This has improved our customer experience and sales efficiency significantly."

- **Jugnu Bhatia**, Chief Accounting Officer

"Ayara eliminated the manual hours needed to consolidate and clean revenue data each week. Automating this process eliminated dependency on specific resources and the occasional manual errors that led to forecast variance. The executive team really appreciated the up-leveling of the forecasting process."
